Exciting Partnership between Captain's Premier Choice Detailing and Crates Marine Belleville!

We are beyond excited to announce our new partnership with Captain Premier Choice Detailing! Together, we will be bringing you the best in boat polishing, maintenance, and care services. This collaboration represents a shared commitment to excellence and customer satisfaction, and we can't wait to serve you with even more convenience and expertise.

In previous spring seasons, meeting the demand for polishing services has consistently proven challenging. Through this collaboration, we aim to enhance our capacity to serve over 300 boats more effectively while providing a broader range of options tailored to your specific needs. With the combined knowledge of our teams, we bring increased experience and expertise to ensure superior service quality.

- **Certified Excellence:** Captains Premier First Canadian marine detailing business certified by **Starke Yacht Care Surface Technology**. Their trained professionals provide superior craftsmanship in wet and dry sanding, compounding, polishing, gelcoat and paint corrections, and ceramic coating application.
- **Long-Lasting Results:** Our advanced ceramic coatings offer enhanced protection, making cleaning easier and ensuring your boat stays glossy and vibrant for longer. This provides both superior aesthetics and long-term value.

Why Choose Ceramic Coating Over Polymer-Based Sealants/Waxes:

We have decided to stop using sealants and waxes moving forward. We will offer different stages of the ceramic treatment. Ceramic is more costly because of the additional benefits explained below:

- **Enhanced Protection:**
 - **Durability:** Ceramic coatings provide long-lasting protection (either 12 months, 24 months, or 2.5 years depending on which package coating you choose) against environmental elements, UV rays, and scratches, ensuring the boat's surface remains shielded.
- **Superior Aesthetics:**
 - **Enhanced Shine:** Ceramic coatings enhance the boat's appearance by creating a glossy and reflective surface, contributing to a sleek and well-maintained look.
 - **Color Retention:** The coating helps preserve the original color of the boat, preventing fading or dulling over time.
- **Easy Maintenance and Cost-Effective Long-Term Solution:**
 - **Hydrophobic Properties:** Ceramic coatings create a hydrophobic surface, minimizing water spotting and making it easier to clean and maintain.
 - **Dirt and Grime Resistance:** The coating repels dirt and grime, reducing the need for frequent and intensive cleaning.
 - **Reduced Maintenance Costs:** The long-lasting protection and ease of cleaning contribute to reduced maintenance costs over time.
 - **Preservation of Value:** Ceramic coatings help maintain the boat's resale value by preserving its aesthetics and structural integrity.

Spring 2026 Detailing Packages – Now Available!

Our rate sheet pricing encompasses a single-stage cut and polish designed for boats exhibiting minimal oxidation, followed by the application of one coat of a premium spray ceramic product. This foundational package is tailored for vessels that have been diligently maintained over the years, displaying only slight indications of color fade or gelcoat oxidation. Should your boat necessitate additional attention or if you wish to elevate to an enhanced service tier, please refer to the options outlined below, each available exclusively by personalized quotation.

Silver Detailing Package

Turnaround Time: 2-3 days depending on length

Description:

- Heavy duty initial foam wash
- Heavy cut compound
- Medium cut compound
- Medium diminishing polish
- Light polish
- Isopropyl alcohol spray wipe down
- Ceramic Surface Primer
- Single Stage Ceramic Coating

Protection Timeline:

Paired with our standalone ceramic base coat providing up to 12 months with proper daily maintenance washes.

Gold Detailing Package

Turnaround Time: 3-4 days depending on length **Description:**

- Heavy duty initial foam wash
- 1 step wet sand at 1000 grit
- Heavy cut compound
- Medium cut compound
- Heavy polish
- Medium diminishing polish
- Light polish
- Isopropyl alcohol spray wipe down
- Ceramic Surface Primer
- Dual Stage Ceramic Coating

Protection Timeline:

Paired with our 9H base coat and SiO2 topcoat providing up to 24 months with proper daily maintenance washes and top coatings.

Platinum Detailing Package

Turnaround Time: 4-5 days depending on length

Description:

- Heavy duty initial foam wash
- 1 step dry sand at 800 grit
- 2-3 step wet sand at 500 grit and 1000 grit (with possible consideration of 2000 grit)
- Heavy cut compound
- Medium cut compound
- Heavy polish
- Medium diminishing polish
- Light polish
- Isopropyl alcohol spray wipe down
- Ceramic Surface Primer
- Dual Stage Ceramic Coating

Protection Timeline:

Paired with our top-of-the-line base coat and top-of-the-line graphene top coat providing up to 30 months with proper daily maintenance washes and top coatings.

All quotes apply solely to detailing exterior smooth gel-coat surfaces (topsides or hulls); deep fender buoy scratches are excluded unless explicitly agreed otherwise. Proper washing and maintenance of ceramic-coated boats and vehicles are essential for long-lasting protection. Inquire about our professional weekly, bi-weekly, or monthly maintenance wash packages to extend your investment. Without these, clients are responsible for maintaining the ceramic coating's longevity.

Customized care packages are available—contact us to discuss options. For a precise quote and demonstration of our process to restore your boat's mirror shine and gloss, request a free test spot if the pricing aligns with your budget.

For further inquiries or to schedule your detailing services, please contact our service department today. We look forward to serving you and ensuring your boat maintains its shine and protection for years to come.
